

OUR *sustainability* INITIATIVES

BLACK BOX

PREMIUM WINES

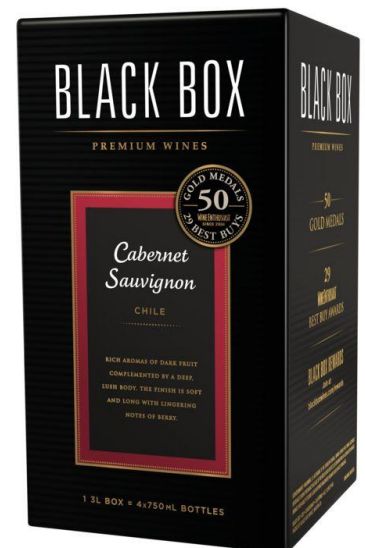

ENVIRONMENTAL PROJECTS

BAG IN A BOX

- Fully recyclable box contains three liters of wine, which is equal to four regular 750ml bottles- no glass required.
- Black Box wines have a smaller carbon footprint than bottled wines and have helped yield 85% less packaging waste. °
- Black Box wines have half the carbon footprint of glass bottles. °
- Lightweight, space-efficient packaging requires far less energy to produce and transport compared to bottled wine.
- The bag inside Black Box Wines is BPA free.

TETRA PAK®

- Tetra Pak® cartons are primarily made from paperboard made from wood- a renewable resource, sourced from well-managed forests where trees keep on growing. *
- 100% of the paperboard in Tetra Pak® cartons is Forest Stewardship Council Chain of Custody Certified- implying it can be traced back to a responsibly managed forest. *
- Recycled into paper products and building materials; Tetra Pak® cartons are recyclable. *
- Tetra Pak® cartons are lightweight; 92% less package weight than traditional glass bottles. †
