

# OUR *sustainability* INITIATIVES

MOUNT  
VEEDER  
WINERY

## ENVIRONMENTAL PROJECTS

- Utilize Integrated Pest Management techniques, such as biological controls, genetic resistance, and minimize tillage to decrease pesticide applications.
- Provide habitats for owl, bat and bird populations, acting as a natural pest control.
- Installed a cover crop of grasses, clover, and legumes to increase nitrogen fixation, increase soil nutrient levels, and decrease erosion.
- Created water collection basins along the inside of the vineyard terraces that empty into the vineyard's underground drainage pipes, protecting against soil erosion.
- Created wildlife corridors throughout the vineyards to allow for natural migration patterns of local wildlife and continued access to streams and grazing areas.
- Publicly report greenhouse gas footprint as part of Constellation Brands' submission to the Carbon Disclosure Project.

## SOCIAL RESPONSIBILITY + COMMUNITY

- Mount Veeder Winery gives back to the Napa community by making donations to various local groups and participating in the following: Auction Napa Valley, Premiere Napa Valley, Concierge Alliance Napa Valley, Dry Creek-Lokoya Volunteer Fire Department, Napa Valley Vintners, and the Mount Veeder Appellation Council.

## CERTIFICATIONS + AWARDS

- Produced at a Certified California Sustainable Winery
- Produced at a Certified Napa Green Winery
- Produced at a winery that received Constellation Brands' Global Sustainability Award

Please enjoy our wines responsibly. © 2018 Mount Veeder Winery, Oakville, CA
