

OUR *sustainability* INITIATIVES

ENVIRONMENTAL PROJECTS

- Robert Mondavi Winery has invested in several energy-efficient projects; insulation of wine tanks, installation of on-demand Glycol system, replacement of air compressors with on-demand Variable Frequency Drive (VFD) units, use of more efficient pond aerators and the installation of high-efficient LED lights- resulting in significant ongoing reductions in electricity usage.
- A single-stream recycling program and installation of a plastic bailer has resulted in a 62% reduction in the amount of the winery's solid waste sent to landfill in the first year.
- Food waste from the Vineyard Room Kitchen is collected and used to make organic compost at the Clover Flat Landfill managed by Upper Valley Recycling.
- The winery's treated process water is recycled for irrigation. In 2017, approximately 19 million gallons of water were recycled.
- Rain and well water are used for landscape irrigation; resulting in an estimated savings of 138,708 gallons of city water per month.
- Efficiency of the irrigation system is measured annually to minimize energy and water loss.
- To reduce emissions and improve fuel efficiency, the tractor and vehicle fleet is being updated with the newest diesel engine technology.
- A water recovery and reuse system was installed in 2016 on the barrel line resulting in a 50% reduction of the water used to wash ~35,000 barrels each year.
- A 'Green Team' meets quarterly and members help collect and recycle bottles at Robert Mondavi Winery Summer Concerts.
- Publicly reports greenhouse gas footprint as part of Constellation Brands' submission to the Carbon Disclosure Project.

SOCIAL RESPONSIBILITY + COMMUNITY

- Robert Mondavi Winery's safety committee meets monthly to identify and address work safety concerns and implemented a safety vest program for all Robert Mondavi Winery production areas.
- In conjunction with Fish Friendly Farming and Opus One, Robert Mondavi Winery participated in habitat restoration of Doak and Lincoln Creeks which run through the To Kalon property.
- Robert Mondavi Winery is an active member in local trade organizations and community groups including: Napa Valley Vintners, Winegrowers of Napa County, Oakville Winegrowers, Concierge Alliance Napa Valley, San Francisco Convention and Visitors Bureau, and Chambers of Commerce in Napa, Yountville, and St. Helena.
- Robert Mondavi Winery is also active in the community including hosting a summer concert series to help fund the Napa Valley Unified School District's music program and through the years has supported the Oxbow School and has donated significant resources to the University of California, Davis.
