Good corporate citizenship is part of our DNA because it’s simply the right thing to do. It’s good for the communities we live and work in, and it’s crucial to building a strong business, successful brands, employee engagement and value for our shareholders.
Giving Back

We’re committed to giving back to the communities we call home. We’re proud of our employees’ passion and honored to support them as they give back to the causes we all care about most. Our three main global initiatives—Nourishing Neighbors, Community Giving, and our Employee Match Program—are complemented by the many activities our employees champion at the local, regional, and brand level.
EMPLOYEE MATCH

The Employee Match program doubles the positive impact employees have on causes that are near to their hearts by matching their contributions to the eligible charity of their choice once per year. In calendar year 2017, more than 1,000 employees participated in the program, and as a result we donated $1 million—our largest contribution yet—to over 1,000 not-for-profit organizations. Since 2011, Constellation Brands and its employees have donated over $3.5M to organizations around the world.

NOURISHING NEIGHBORS

Through our Nourishing Neighbors program, we provide employees with paid time off so they can volunteer and help the fight against hunger in their communities. In fiscal year 2018, to celebrate our fourth annual Nourishing Neighbors initiative and to provide our employee volunteers greater flexibility, we expanded the program from one week to a full month.

DISASTER RELIEF

From wildfires, to earthquakes to floods, the last few years have been difficult for many communities around the world. During times of need, Constellation Brands and our employees have always taken a leadership role to help with immediate needs and recovery. The Constellation Brands Disaster Relief Fund makes it easy for employees to contribute to relief efforts and support victims when a natural disaster strikes. The company also contributes directly and augments the fund with a 2:1 employee match program.

Sustainability

The environment is critical to our long-term growth and success as a business, and to the health and well-being of the communities in which we all live and work. From improved efficiency in water and wastewater to solar energy, biodiversity and restoration projects, we’re always looking for ways to improve our stewardship and use of resources while continuing to efficiently produce the highest quality products.
SONOMA COUNTY SUSTAINABILITY PROGRAM

Clos du Bois, SIMI and Dunnewood wineries completed a six-month Sonoma County sustainability program, which resulted in a customized five-year sustainability action plan focused on more than 20 environmental initiatives including energy efficiency, resource savings and employee engagement. We estimate that these initiatives will save more than 300,000 kWh and 200 metric tonnes CO2E.

MANY OF OUR INDIVIDUAL PRODUCTION FACILITIES AND WINERIES HOLD A WIDE RANGE OF CERTIFICATIONS.
In fiscal 2018, we continued to our work with Ceres’ Connect the Drops Campaign to further responsible water use. We hosted a group of Ceres members on a tour of our Robert Mondavi Winery to share best practices and how we minimize our water use in California.

Our Napa Valley Vineyard Operations team collaborated with the Environmental Protection Agency (EPA), the Napa County Flood Control Agency and other partners on a nine-mile Napa River Restoration project that benefits wildlife and promotes biodiversity, increases water quality within the restoration zone and improves flood control.

Our energy efficient brewery in Nava, Mexico increased water reuse 35 percent in fiscal 2018, an improvement from last year’s water usage. The brewery uses its onsite water treatment process to recycle and reuse water.
